1. INTRODUCTION

At the 50th AGM held on 21 October 2020, the shareholders of the Company had approved the renewal of the shareholders' mandate to allow the Nylex Group to enter into RRPTs as set out in the Circular to Shareholders dated 29 September 2020. The said mandate, in accordance with the Listing Requirements, will expire on the conclusion of the forthcoming 51st AGM of the Company, unless such authority is renewed by a resolution passed at the forthcoming 51st AGM.

On 24 September 2021, the Company announced its intention to seek the approval of its shareholders to renew the mandate in respect of RRPT with existing transacting Related Parties, pursuant to Paragraph 10.09 of the Listing Requirements and Practice Note 12.

The purpose of this Circular is to provide you with details of the Proposed RRPT Mandate and to set out the views of your Board and to seek your approval for the resolution relating thereto to be tabled at the 51st AGM of the Company.

**YOU ARE ADVISED TO READ THE CONTENTS AND APPENDICES OF THIS CIRCULAR
CAREFULLY BEFORE VOTING ON THE RESOLUTION PERTAINING TO THE PROPOSED

Sales personnel and the credit controller will follow up regularly with ACCSB to ensure that the outstanding amounts are recovered. As at the Latest Practicable Date, the total amount due and owing by the related party has been recovered.

2.6. Review Procedures

The Nylex Group has established the following procedures to ensure that the RRPT are undertaken at arms' length basis and on normal commercial terms consistent with the Group's usual business practices and policies, which are generally not more favourable to the Related Parties than those generally available to the public and are not detrimental to Nylex's minority shareholders.

There are no specific thresholds for the approval of RRPT. All RRPT will be reviewed and approved by the Director(s) (with the exception of Directors interested in the RRPT) or such other senior executive(s) (not being a person connected to the Related Party) designated by the Audit Committee, from time to time for such purpose.

The Group has established the following procedures in relation to the RRPT:

- (i) the relevant employees of the Group are notified of the identities of the Related Parties and will be required, prior to entering into such transaction, to ensure that all the RRPT are consistent with the Group's normal business practices and policies, on terms not more favourable to the Related Parties than those generally available to the public and not detrimental to the minority shareholders;
- (ii) the transaction prices and terms are determined based on the prevailing market rates which are determined by market forces and other relevant factors. Where practical and feasible, quotations and/or tenders will be obtained from unrelated parties for the same or substantially similar products or services for at least two (2) other contemporaneous transactions with unrelated third parties for similar services will be used as a comparison, wherever possible, to determine whether the price and terms offered to/by the Related Parties are fair and reasonable and comparable to those offered to/by other unrelated third parties for the same or substantially similar type of services. Where it is impractical or impossible for quotes and/or tenders to be obtained from unrelated parties, or where there has not been any similar transactions between the Group and unrelated third parties, the terms of the transactions for the products or services will be in accordance with applicable industry norms, prevailing commercial rates and at rates not more favourable to the Related Parties than those generally available to the public and is not detrimental to Nylex Group;
- (iii) all RRPT will be reviewed monthly by the Company's Corporate Office to ensure that they are within the shareholders' mandate obtained;
- (iv) records will be maintained by the Company's Corporate Office to capture all RRPT which are entered into pursuant to the Proposed RRPT Mandate;
- (v) additional information pertaining to the RRPT may be requested from independent sources or advisers, if required;
- (vi) the Audit Committee will review all RRPT every quarterly, with a detailed review of RRPT exceeding RM1.0 million; and
- (vii) the Audit Committee will consider, from time to time, whether the established guidelines and procedures for RRPT have become inappropriate and/or it is unable to ensure that the transactions will be on normal commercial terms and/or will prejudice the interests of shareholders generally. Notwithstanding the above, the guidelines and procedures for RRPT will be reviewed by the Audit Committee at least once in a financial year.

2.7. Statement by Audit Committee

The Audit Committee has reviewed the procedures mentioned in Section 2.6 of this Circular and is of the view that procedures are sufficient to ensure that the RRPT are not more favourable to the Related Parties than those generally available to the public and are not to the detriment of the minority shareholders of the Company and that the Group has in place adequate procedures and processes to monitor, track and identify RRPT in a timely and orderly manner.

The Audit Committee conducts a review of the procedures on a yearly basis or such frequency as the Audit Committee considers appropriate having regard to the value and frequency of the RRPTs.

2.8. Rationale and Benefits of the Proposed RRPT Mandate

The RRPT are all in the ordinary course of business. They are recurring transactions of a revenue or trading nature which are likely to occur with some degree of frequency and arise at any time and from time to time. As these transactions may be constrained by the time-sensitive nature and confidentiality of such transactions, it may be impractical to seek shareholders' approval on a case-by-case basis before entering into such RRPT.

The RRPT are intended to meet the business needs of the Group at the best possible terms. By transacting with the Related Parties, the Group would have an advantage of familiarity with the background and management of the Related Parties, thus enabling more informed commercial decisions to be made. In most dealings with the Related Parties, the Group and the Related Parties have close co-operation and a good understanding of each other's business needs thus providing a platform where all parties can benefit from conducting the RRPT.

By obtaining the Proposed RRPT Mandate on an annual basis, the need to convene separate general meetings from time to time to seek shareholders' approval as and when such RRPT occur, would not arise. This will substantially reduce administrative time, inconvenience and avoid expenses associated with the convening of such general meetings on an ad-hoc basis without compromising the corporate objectives of the Group or adversely affecting the business opportunities available to the Group.

2.9. Effects of the Proposed RRPT Mandate

The Proposed RRPT Mandate will not have any effect on the share capital and shareholding structure of the Company and will not have any impact on the NA and EPS of the Group.

3. APPROVAL REQUIRED

The Proposed RRPT Mandate is conditional upon approval being obtained from the shareholders of Nylex at the forthcoming 51st AGM to be convened.

4. DIRECTORS' AND MAJOR SHAREHOLDERS' INTERESTS

Save as disclosed below, none of the other Directors and Major Shareholders of Nylex or person(s) connected to them (as defined in Paragraph 1.01 of the Listing Requirements) have any interest, direct or indirect, in the Proposed RRPT Mandate:

STATEMENT IN RELATION TO PROPOSED RENEWAL OF SHAREHOLDERS' MANDATE ON SHARE BUY-BACK

1. INTRODUCTION

On 24 September 2021, the Company announced its intention to seek the approval of its shareholders to renew the mandate for Share Buy-Back provided that the Shares so purchased shall, in aggregate with the Treasury Shares, not exceed ten per centum (10%) of its total issued and paid-up capital on Bursa Securities in accordance with the provisions of Section 127 of the Act, the Company's Constitution and the Listing Requirements.

At the 50th AGM held on 21 October 2020, the shareholders of the Company approved the mandate for the Company to repurchase its own shares. The said mandate, in accordance with the Listing Requirements, will expire on the conclusion of the forthcoming 51st AGM of the Company.

The Proposed SBB Mandate will continue to be in force until the conclusion of the next AGM of Nylex at which time it will lapse, unless earlier revoked or varied by ordinary resolution passed by the shareholders in general meeting, or upon the expiration of the period within which the next AGM after the date is required by law to be held, whichever occurs first.

The purpose of this Statement is to provide you with details of the Proposed SBB Mandate and to set out the views of your Board and to seek your approval for the resolution relating thereto to be tabled at the 51st AGM of the Company.

2. DETAILS OF THE PROPOSED SBB MANDATE

2.1. Rationale for the Share Buy-Back

The Share Buy-Back is expected to stabilise the supply and demand of Nylex's Shares, which in turn may have a positive impact on the prices of the Shares.

2.2. Potential advantages and disadvantages of the Share Buy-Back

The potential advantages of the Share Buy-Back include the following:

- (i) it would enhance the consolidated EPS of the Company if the Purchased Shares are cancelled resulting in a reduction in the issued and paid-up share capital of the Company;
- (ii) in the event that the Company chooses to retain the Purchased Shares as treasury shares and resell the said shares at a higher price than the purchase price, the financial resources of the Company would be increased;
- (iii) the Treasury Shares may be distributed to shareholders as dividends, which if undertaken, will serve to reward the shareholders of the Company;
- (iv) the Treasury Shares can be used as a payment for purchase consideration, thus eliminating the need to utilise the Company's cash resources for such purposes; and

The potential disadvantages of the Share Buy-Back include the following:

- (i) it would reduce the available financial resources of the Company which could be used to distribute cash dividends to the shareholders; and

- (ii) it involves cash outflow from the Company which could otherwise have been retained in the business for future investment opportunities that may in turn result in the loss of any income that may arise from the deposit of such funds in interest bearing instruments.

2.3. Treatment of Purchased Shares

In accordance with Section 127 of the Act, the Board may, at its discretion, deal with the Purchased Shares in the following manner:-

- (i) to cancel the Purchased Shares; or
- (ii) to retain the Purchased Shares as Treasury Shares for distribution as dividend to the shareholders; and/or resell on the market of Bursa Securities; and/or to be transferred under an employees' share scheme or as purchase consideration; and/or cancelled subsequently; or
- (iii) to retain part of the Purchased Shares as Treasury Shares and cancel the remainder; or
- (iv) to deal in such other manner as allowed by the Act and Bursa Securities from time to time.

if such Purchased Shares were held as Treasury Shares, the rights attaching to them in relation to voting, dividends and participation in any other distribution or otherwise would be suspended and the Treasury Shares would not be taken into account in calculating the number or percentage of shares or a class of shares in the Company for any purposes including the determination of substantial shareholding, take-overs, notices, the requisitioning of meetings, the quorum for meeting and the result of a vote on resolution(s) at shareholders meetings.

The Board has yet to make any decision with regard to the treatment of the remaining Purchased Shares and will take into consideration the effects of such treatment to the Group in arriving at its decision.

2.4. Funding

The Share Buy-Back will be financed by internally generated funds or bank borrowings, the proportion of which is dependent on the quantum of the purchase consideration as well as the availability of the internally generated funds and the repayment capabilities of the Company if financed by bank borrowings. The Board will ensure that the Company has sufficient cash flow to repay the bank borrowings and that the repayment would have no material effect on the financial resources of the Company.

The maximum amount allocated for the Share Buy-Back shall not exceed the retained profits of the Company at the time of purchase. Based on the latest audited accounts as at 31 May 2021, the Company has a balance of RM68,537,000 in the retained earnings. Based on the latest management accounts as at 31 August 2021, the Company has a balance of RM65,565,000 in the retained earnings.

The actual number of Nylex Shares to be purchased, the total amount of funds involved for each purchase and the timing of the purchase(s) will depend on the prevailing equity market conditions, the financial position as well as the availability of the retained profits and share premium reserves of the Company.

2.5. Material Financial Effects of the Proposed SBB Mandate

2.5.1. Share Capital

It is the intention of the Company to retain the Purchased Shares as Treasury Shares. Hence, it will not have any effect on the total issued and paid-up share capital of Nylex. However, the rights attached to the Purchased Shares will be suspended as long as they are retained as Treasury Shares.

2.5.2. NA

The effect of the Share Buy-Back on the consolidated NA of the Group will depend on the purchase price and the number of Shares purchased and the treatment of the Purchased Shares. In the event that the resale price is higher than the purchase price, there will be an increase in the consolidated NA, and vice versa.

If the Treasury Shares are distributed as share dividends, the consolidated NA would decrease by any associated costs incurred in the distribution of the Treasury Shares.

2.5.3. Working Capital

The Share Buy-Back is likely to reduce the working capital of the Group, the quantum of which will depend on the actual number of Nylex Shares purchased and the price paid and any associated costs incurred for the purchase of the Shares.

In the event that the Treasury Shares are subsequently resold on Bursa Securities, the working capital of the Group will increase upon the receipt of the proceeds of the resale.

2.5.4. EPS

The effect of the Share Buy-Back on the EPS of the Group will depend on the actual purchase price of Nylex Shares, the number of Shares purchased and any effective funding cost of the purchase, if applicable, or any loss of interest income to the Company resulting from funds used for the Share Buy-Back.

Generally, all else being equal, the Share Buy-Back will have a positive impact on the EPS of the Group as the Purchased Shares, whether cancelled or retained as treasury shares, will effectively reduce the total share capital used for the computation of EPS.

In the event that the Treasury Shares are subsequently resold on Bursa Securities, the EPS will increase if the purchase price and associated costs incurred are less than the actual selling price of the Treasury Shares, and vice versa.

2.5.5. Dividends

The Share Buy-Back may have an impact on the Company's dividend pay-out as it may reduce the cash available, which could otherwise be used for the dividend payment. Nonetheless, if the Purchased Shares are retained as treasury shares, the dividend rate will also be increased with the suspension of the rights attaching to the Treasury Shares as to dividend entitlement. Moreover, the Treasury Shares so purchased may be distributed as share dividends to shareholders of the Company if the Board so decides.
